

Backpack Holder

njphillips.com

Our expertise is in your hands.

Container in Upright Position

The *Backpack Holder* can be used with the container in the upright position when using a draw-off system.

In conjunction with this, the *WX1478 Material Holster* is very useful to hold the applicator when not in use.

Backpack in use with Powered Applicator

The *Backpack Holder* can also hold a portable LPG bottle when being used with the NJ Phillips Pty Limited Powered Applicator. The second pocket holds the LPG bottle while the large pocket holds the 2.5 litre or 5 litre collapsible bottle.

Container in Inverted Position

When using a standard draw-off cap, the container can be used in the inverted position in the *Backpack Holder*.

In conjunction with this, the *WX1478 Material Holster* is very useful to hold the applicator when not in use.
